

Data Scientist

Name: Ananya Gupta

Email: ananya.gupta.ds@gmail.com

Phone: +1-555-987-6543

Location: Boston, USA

GitHub: github.com/ananyagupta

LinkedIn: linkedin.com/in/ananyagupta

Professional Summary

Data Scientist with 2+ years of experience in analyzing large datasets and building predictive models using machine learning techniques. Strong expertise in Python, statistical analysis, and data visualization. Skilled in using scikit-learn, Pandas, and NumPy to generate actionable insights.

Technical Skills

- **Programming Language:** Python
 - **Machine Learning:** scikit-learn, Supervised & Unsupervised Learning
 - **Data Analysis:** Pandas, NumPy
 - **Data Visualization:** Matplotlib, Seaborn
 - **Statistics:** Hypothesis Testing, Probability, Regression
 - **Databases:** SQL
 - **Advanced Skills:** Deep Learning (TensorFlow), NLP basics
-

Work Experience

Data Scientist

ABC Analytics, USA

Jan 2023 – Present

- Built and deployed machine learning models using scikit-learn
- Analyzed large datasets using Pandas and NumPy

- Generated insights to support business decision-making
 - Created visualizations using Matplotlib and Seaborn
 - Applied statistical techniques for data interpretation
 - Worked with SQL databases to extract and process data
 - Implemented basic deep learning models using TensorFlow
-

Data Analyst Intern

XYZ Data Labs, USA

Jun 2022 – Dec 2022

- Cleaned and analyzed datasets using Python
 - Built simple ML models for prediction tasks
 - Created dashboards and visual reports
 - Assisted in statistical analysis and data preprocessing
-

Projects

Customer Churn Prediction

- Built classification model using scikit-learn
- Used Pandas for data cleaning and preprocessing
- Visualized trends using Seaborn and Matplotlib

Sentiment Analysis on Reviews

- Implemented NLP techniques for text analysis
 - Used TensorFlow for basic deep learning model
 - Generated insights from customer feedback
-

Education

Bachelor of Technology in Computer Science
ABC University, USA
2022

Certifications

- **Machine Learning with Python**
- **Data Science Fundamentals**
- **Introduction to Deep Learning**
