Summary

Python Backend Developer with hands-on experience in building scalable backend systems using Python, Flask, Django, REST APIs, SQL, and PostgreSQL. Skilled in designing microservices, API integration, and optimizing backend performance. Experienced with Docker, AWS, Git, and GitHub in agile environments.

Skills

Python, Flask, Django, REST APIs, SQL, PostgreSQL, Git, GitHub, Docker, AWS, Microservices

Experience

- Developed scalable backend services using Python, Flask, and Django
- Designed and implemented REST APIs for web applications
- Managed relational databases using PostgreSQL and SQL queries
- Maintained version control using Git and GitHub workflows

- Containerized applications using Docker for deployment
- Deployed backend services on AWS cloud infrastructure
- Improved system performance through query and API optimization
